

**January 2015**

**MID WEEK REPORT**

\_\_\_\_\_ Hi hope everything is fine. We are in the third week of the term and all the programs in the school are proceeding well. The public schools are having their first week since there was some national strike since teachers were feeling that they are not being paid well but with st Christine it is third week since we are considered as private. On Monday it was fine and the school routine was as usual. There are just some minor challenges that we are working to control like water shortage wish you well and continue with the support you are offering to the school and in improving the community. Expect full report at the end of the week.  
Regards Dan.
