

WEEK 4 REPORT

Hi, how is everyone? We are fine at the school, however, it is dry, hot and there is a lot of dust all over here. The week started well with a Monday morning's assembly as from 7.50 a. m to 8.20 am. From the assembly, it was business as usual. Teaching and learning being the core businesses, activities in its support were seen taking the right direction, as teachers and pupils were actively involved and committed to it. Moreover, on a Wednesday, there was a debate organized by the debating club under the leadership of Oward Owuor. This is always meant to improve the pupils' English and Kiswahili languages. However, efforts to develop pupils' talents was not left behind. A lot of practices were on in both drama and Games. For drama it is seriously done ensure that higher levels as was the previous year are reached; ECD singing game is defending the National Trophy. We hope and look foreword for the very best, as has always been. In addition, spiritual development is always catered for every Friday morning after assembly. Pupils and teachers gather for spiritual songs, dances and Bible verses. These are elaborated by either teachers and or an invited guest speaker from the local community. It is meant to encourage, guide and counsel both pupils and teachers .We like it! Attached herein are pictures of some of the activities in the school. Pass our regards to all. Thanks.

Augustine
