

## **YEAR 2018 ACADEMIC REPORT.**

### **1. RESULTS**

As the year comes to an end, it is very important to inform you about the above subject.

We have worked well this year up to now, though just some days to end it officially. We have had exams done in the past and results communicated to you. Once again, we had tests done to mark the end of this term and the year. To this report is the result across all classes except class 8.

Some of them are not very good; however we hope to have an improved result come next year. On the contrary, we have a number of children with special needs, though we do not have teachers specifically trained on special needs. This has been a factor contributing to not a better performance. I hope you can advise us on this.

### **2. K.C.P.E EXAMINATIONS.**

The exam is scheduled to start on Monday 29<sup>th</sup> October, 2018 with rehearsals. The action days will be from Tuesday 30<sup>th</sup> to Thursday 1<sup>st</sup> October. We keep revising with them to make them better hopefully.

### **3. NEW CURRICULUM**

The country is adopting a new education system that has called for a changed curriculum to fit in. This means a lot to all the schools in Kenya. They have to purchase new books that are compliant to the new curriculum .The implementation of the curriculum started this year by second term, for the lower classes, however, with the Public schools. They already have the books. We managed to borrow some few copies of the books to enable us comply. For next year, we shall have to purchase our own for the lower classes up to class 4.We therefore hope to have this captured in the 2019 budget for the school.

We had made visits to the booksellers to confirm prices and literally check on procurement issues. We intend to have the books within the first week of opening to enable us start well then.

Regards,

Augustine
