

**Newsletter No 103** 22-03-06

**In preparation for the upcoming annual meeting the nomination committee needs your help.**

We, the members of the Society's nomination committee, write to you pleading for your help in finding a person, who can take on the role as the Society's accountant. Are you a person, who wants to engage yourself and contribute to the school in Kenya? As the accountant in the Kisumu Society you will be responsible for making sure that the donations reach the Foundation and the school in Kenya. You will record the Society's income and costs and establish the annual report and yearly budget. The work takes around 1 - 2 hours per month. You don't need any economic background, since our accounting is fairly simple, but it's an advantage if you feel comfortable working with Excel and numbers. In addition to the work with the economy you will participate in monthly board meetings. They usually last for an hour and give you a good insight into the Society's work and the situation in the school in Kenya. The present accountant will assist you and introduce you in the role. Does it sound exciting and fun? Contact anyone of us in the nomination committee.

With kind regards

The nomination committee of the Kisumu Society
