

## **Auditor's report concerning the Kisumu Association for the year 2021**

The undersigned, elected to audit the Kisumu Association's operation in the year 2021, herewith, having concluded the assignment, delivers the result of my scrutiny.

The activity of the Kisumu Association is based on the agreement between St Christine Foundation and its thereto associated role as main sponsor of St Christine Education Centre, which is the Association's mission.

I have reviewed the documentation presented to me in the form of operational plan, general ledger, verifications and financial reports in accordance with good auditing practice.

The financial records provide an detailed account of the operations in Sweden.

No fees were paid to the board members.

The year's operation resulted in a surplus of SEK 55 346. As a consequence the common equity increased from SEK 258 618 to SEK 313 964

I have found no reason to criticize the book keeping or the operation in general, since everything was found in good order, and I therefore recommend :

- that the board be granted freedom from liability for the management during the year 2021, and
- that the year's net result be transferred into a new account
